

## PETITION

To: Assistant District Attorney Harvey Dent

Over your term of office, you have betrayed the people of Gotham by targeting innocent cops for your own political purposes. You have destroyed the lives of brave, honest police officers and devastated their families all because of your lust for political power. You have defied every possible religious, moral, or ethical scruple by prosecuting innocent cops to satisfy your unholy thirst for media attention and glory. You have betrayed Gotham, and you have betrayed your own soul.

As you now seek to become District Attorney of Gotham City, we demand that you

1. Acknowledge to the Gotham citizenry that you knowingly did falsely prosecute innocent men who were taken from their families and thrown in jail due to your villainy.
2. Explain to the Gotham public the nature of the improper and illegitimate "investigation" you carried out in order to frame these good cops.
3. Call a press conference and apologize individually to every police officer you falsely accused.
4. Work to free those innocent men that you nefariously imprisoned.

Assistant District Attorney Dent, the vast majority of the men you prosecuted were absolutely innocent. To date, you have refused to admit that what you did to them was an absolute outrage, a miscarriage of justice, and a perversion of our legal system. We want to hear what you have to say.

We the undersigned believe that your response on these four points mentioned above to be absolutely critical. Without the proper response, we will make sure you do not have the opportunity to betray Gotham City from an even higher public post.

It is time for you to admit the truth, Harvey Dent.

Signed,

---
